Hello Steve,

Attached are your monthly status reports for the billing period: 07/25/15 – 08/21/15

(The Gold King Mine Blowout report will be sent separately.)

No response is necessary unless you have comments. If there are no comments, Joyce Ackerman, the START4 Project Officer, will assume that you agree the direct charges on your TDD appear to be reasonable, accurate, and commensurate with the level of effort performed during this time period.

Thank you.

Marilyn Janovec, Contract Support
